TRADE ALLIES GLOBAL

Dehydrated Vegetables | Spices | Makhana
(Fox Nuts)

REGISTERED MEMBER OF APEDA
& MSME UDYAM

Who we are?

Most importers are frustrated by the traditional Indian export market. You deal with delayed communication, inconsistent batch quality, and the anxiety of wondering if the container arriving will match the sample you approved.

Trade Allies Global was built to fix this. We are a young, fiercely dedicated export firm. We don't have a 50-year-old domain name, but we have a modern supply chain architecture. We act as your dedicated, outsourced procurement desk—navigating the chaotic Indian market so you don't have to.

Our Vision

To eliminate the uncertainty of Indian agri-exports by building the most transparent, agile, and reliable procurement network in the industry. We envision a global supply chain where food manufacturers can source premium Indian ingredients with zero anxiety and absolute trust.

Our Mission

- To act as your dedicated, on-the-ground procurement desk, sourcing premium spices and dehydrated ingredients exclusively from vetted, BRC-certified facilities.
- To ruthlessly protect your supply chain from quality rejections and customs delays through strict physical audits and flawless logistical execution.
- To replace the traditional, slow export model with radical transparency, 24/7 responsiveness, and a commitment to your long-term manufacturing success.

Meet the Founder

Kshitiz Kaithwas — Market-Taught. Battle-Tested.

I graduated in Marine Engineering from India's premier maritime institute, Indian Maritime University (IMU), Kolkata. But in 2019, I walked away from the lavish, secure life of the Merchant Navy to throw myself into the chaos of entrepreneurship. I wanted to build, scale, and solve real-world market problems.

Over the last several years, I have been battle-tested across the core pillars of the supply chain:

 **Manufacturing & QC:** I built and ran my own soap manufacturing unit. I know exactly how factories operate, how production lines bottleneck, and—most importantly—how manufacturers try to cut corners. I know what to look for when auditing our partner facilities because I've been on the other side.

 **Agricultural Roots:** I didn't just read about farming; I did it. Having a keen interest in the agri-sector, I successfully set up and managed commercial hydroponic farming on my own land. I understand crop cycles, yields, and raw material quality from the ground up.

 **High-Stakes Sales:** My time in real estate sales with "A.K. Infradream Limited" taught me how to handle high-ticket negotiations, manage complex client requirements, and communicate with absolute transparency.

 **Speed & Scale:** In the fast-paced E-commerce sector, I founded and scaled my own D2C brand, Kalesh Monk, taking it to ₹1 Crore+ in sales in just 6 months. This taught me the modern mechanics of rapid logistics, customer obsession, and hyper-agile supply chains.

Why I Built Trade Allies Global (Est. 2024): Since 2022, I have been analyzing the global agricultural export market and noticed a massive flaw: foreign buyers were exhausted by slow communication, hidden factory margins, and delayed shipments. I combined my understanding of maritime logistics, factory-level manufacturing, and agricultural sourcing to launch Trade Allies Global in 2024. I built this company with just two non-negotiable pillars: **Total Transparency and Relentless Speed.**

FOXNUTS/MAKHANA

Makhana is a versatile food product derived from the seeds of the Euryale ferox plant, native to shallow freshwater lakes in South Asia. India is the world's leading producer and exporter of Makhana, known for its unique taste, texture, and health benefits.

- ▶ Indian Makhana adheres to strict quality standards to ensure safety and hygiene.
- ▶ The processing involves cleaning, drying, and sometimes whitening the seeds before packaging.
- ▶ Different processing methods like roasting or flavoring can further enhance the product's appeal.

RED CHILLY FLAKES

We source our chillies from the most fertile regions of India, ensuring exceptional freshness and consistent pungency. Our meticulous drying process preserves the natural color, aroma, and fiery essence of the chilli.

OUR CERTIFICATIONS

FOOD SAFETY AND STANDARDS
AUTHORITY OF INDIA

Inspiring Trust, Assuring Safe & Nutritious Food
Ministry of Health and Family Welfare, Government of India

As a proud member of APEDA, Spice Board of India, and FSSAI, we take pride in upholding the highest standards of quality and safety in every aspect of our operations. Our dedication to excellence is reflected in our prestigious certifications, which demonstrate our commitment to meeting and exceeding international benchmarks for food safety, quality assurance, and ethical practices.

Our ISO 9001:2015 certification reflects our unwavering commitment to quality management systems that meet the highest international standards including certified Halal by accredited certifying agencies, ensuring that our products adhere to Islamic dietary laws and principles.

08. ●●●

Our Infrastructure & Factory Partners

A trading firm is only as good as its supply base. We don't buy from open local markets. We hold **official** partnerships exclusively with top-tier manufacturers.

BRC-Certified Facilities

We only partner with facilities holding the highest global standards for food safety.

Proven Track Records

Our partner factories process thousands of metric tons annually for global markets.

On-Ground QA

Our team acts as your firewall, auditing the cargo at the facility before it reaches the port.

Why Pay for a Procurement Partner?

If you go direct to an unvetted factory, you might save a few cents per kilo. But what happens when the **HS code** is wrong, the Phyto certificate is delayed, or the moisture content ruins your factory line? That "cheap" container just cost you thousands of dollars.

At **Trade Allies Global**, our slight premium is your insurance policy. We justify it through:

**Agile
Communication**

We operate on your time zone. No waiting 48 hours for a reply.

**Flawless
Compliance**

We ensure every document is perfect so customs clearance is instant.

Peace of Mind

You focus on manufacturing; we ensure the raw materials arrive exactly as promised.

QUALITY ASSURANCE & FOOD SAFETY MEASURES:

- **Raw Material:** Purchase team inspects farm fields and samples.
- **Quality Control:** Monitoring CCPs, OPRPs, and PRPs at defined intervals.
- **Client Satisfaction:** Third-party inspection reports (EUROFINS, SGS) provided.
- **Custom Packaging:** Available for private labeling in bulk orders.
- **Food Safety Standards:** Adherence to global food safety and quality standards.
- **Certifications:** Certified by Kosher, Halal, FSSC 22000, FSSAI, ensuring compliance with international regulations and client expectations.

Product Highlight

Core Product Specifications - Dehydrated Red Onion

- Premium Indian origin ensuring bold, uniform color and strong pungency.
- Naturally high volatile oil content for robust flavor retention in final products.
- Ideal for seasoning blends, soup thickeners, sauces, meat processing, and instant noodles.
- Carefully processed with strict moisture control (<6.0%) to prevent caking in your factory lines.
- Optically sorted and passed through magnetic traps to ensure zero foreign matter.
- Processed and packed exclusively in BRC-certified and Halal-compliant facilities.
- Suitable for bulk industrial packaging (20kg/25kg Poly-lined Moisture-Proof Cartons).
- Available Forms – Powder (80-100 Mesh) | Granules (0.5-1mm) | Kibbled (8-15mm).

Product Highlight

Premium Red Chilli (Teja S17) – Key Highlights

- Highly sought-after export variety known for extreme heat and vibrant red appearance.
- Naturally high pungency with guaranteed Scoville Heat Units (75,000–100,000 SHU).
- Well-suited for hot sauces, spicy snack coatings, marinades, and commercial spice blends.
- Consistent quality across shipments with rigorous pre-shipment testing for Aflatoxin and Sudan Dye.
- Stemless and with-stem options available depending on your exact grading requirements.
- Hand-picked, sun-dried, and milled under strict international food safety norms.
- Available in bulk PP bags, customized export packaging, or vacuum sealing.
- Available Forms – Whole Dried Pods | Coarse Flakes | Fine Powder (Standardized ASTA)
